

# ThisWeek

### In The Spotlight

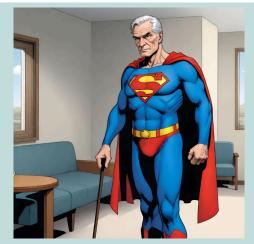

No Four in a Row is like the opposite of the popular board game Connect 4. The objective is

game Connect 4. The objective is to fill the grid with Xs and Os in such a way that there are never four of the same symbol in a row, including diagonally. As with all our puzzles, it can be solved with logic alone, and there's never any need to make guesses.

Our younger readers can find a colouring page inspired by our cover design at the end of the printable section

#### Did You Know...?

Superman was arguably the first superhero, making his debut in Action Comics issue 1 in 1938. However, there were earlier characters that exhibited superhero-like qualities. The Phantom, created by Lee Falk, debuted in 1936 and is considered by some to be the first costumed superhero. Hugo Hercules, a character possessing superhuman strength, debuted in 1902 in a short-lived comic strip.

#### From The Editor

Greetings, puzzle lovers. I hope you're having a super week (sorry, I couldn't resist). Reading this week's fact about how old Superman really is has made me feel quite young and sprightly. It's also made me imagine the child of Krypton sitting in his retirement home, doing puzzles to exercise his grey matter (though I'm sure he's still sneaking off at night, against the advice of the nurses, and kicking criminal butt!)

It's been proven time and again how using one's brain to solve puzzles helps to stave off mental decline, and can even delay the onset of dementia. Teasers like Sudoku and Suguru are a brilliant way to keep the mind active and working. That makes *Puzzle Weekly* a kind of gymnasium for the mind. Except it's much more fun than bench presses.

Each week we try to bring you a mix of logic, spatial reasoning, and

even a bit of mathematics. Just as different gym apparatus works different muscle groups in the body, so these various puzzles exercise different regions of the brain, giving you a comprehensive mental workout.

If you know someone who is advancing in years and who might enjoy some puzzles, why not pass on a copy of *Puzzle Weekly*? They might also be interested in our range of large print puzzle books designed specifically for older eyes. You can find them all on our website. Happy solving.

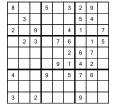

Felix Linklater

# Tips&Tutorials

There are three types of puzzle in this magazine, plus the kids puzzles, for a total of seven different types. If some of the puzzles are new to you, we have helpful tutorials on-line. They'll get you up to speed in no time.

#### This Week's Puzzles

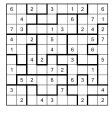

#### Sudoku

Our all-time favourite puzzle, Sudoku is a fascinating challenge. We have a detailed three part tutorial here: puzzlegenius.org/learnsudoku

#### Suguru

Simple rules make Suguru a snap to learn. You can find our tutorial here: puzzlegenius.org/learnsuguru

### 2 Ways To Play

#### On Device

Play the puzzles right on your device. We've designed our pages around big puzzles, ideal for filling in on your iPad, Kindle Scribe, reMarkable, or Kobo Elipsa.

If you're already reading this on your device, you're all set to go.

If you need help getting Puzzle Weekly onto your device, there

If you need help getting Puzzle Weekly onto your device, there are instructions on our website, here:

puzzlegenius.org/devices

### **Printable Section**

If you prefer to do your puzzles 'old school', on pen (or pencil) and paper, you can print out our special printable section.

It contains all the puzzles for the week (including kids puzzles), condensed down into just 7 pages.

To print just the printable section, print out pages 33-39.

To include the kids colouring page, print pages 33-40.

For help on how to print just those pages, see our guide:

puzzlegenius.org/printing

# Featured Book

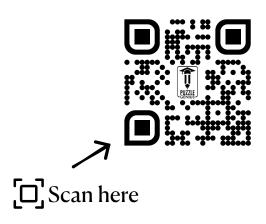

#### Easy on the eyes...not so easy to solve.

- 60 Easy, 60 medium, and 60 hard sudoku puzzles.
- Large print perfect for adults, seniors, or anyone who wants more space in their sudoku grid.
- One puzzle per page makes the grids easy on the eye and gives you even more space for candidates and working out.
- Extra bonus puzzles included: Killer Sudoku and Suguru.
- The ideal mental workout to keep your mind active.

We've super-sized these Sudoku puzzles to bring you our biggest grids ever. There's loads of space to write in candidate numbers. And of course, the numbers are jumbo sized too, making them easy to read.
